UL1

BLUETOOTH ENABLED, FINGERPRINT AND KEY FOB SMART LOCK

Simplify Your Safety

What is Ultraloq UL1?

Ultraloq UL1 is a smart lever lock designed to be "Real Keyless" for maximum flexibility and convenience. User can use fingerprint, key fob or smartphone to unlock the door. With Ultraloq Bridge, you can share Ekey to grant temporary access to guests wherever you are. In addition, Ultraloq app keeps a log of who's entered the door and when for your monitoring.

How Does Ultraloq Work For You?

Home

Ideal for vacation home, front door, home to garage door, home office, storage room, wine cellar, gun room etc where privacy and security matter.

For Everyone

Works for everyone in your family. With or without smartphone. Fingerprint and key fob are perfect for children and elderly who might not have a smartphone.

Airbnb Host

With Ultraloq UL1 and Bridge, you can share a temporary access to your guest for a specific time period without physically being there. Ultraloq UL1 works perfectly for hosts of both entire home and private rooms.

Business

The right of access into each room can be controlled and monitored. No more replacing locks or exchanging keys when employees quit. Just take few seconds to delete those users in Ultraloq app.
